

Anna has been working in insurance for just over 5 years, gaining valuable knowledge in the various aspects of an independent agency. In those 5 years, she has worked with personal lines products, farm products, and commercial products. Anna has earned her CISR designation and is actively working to complete her CIC and AFIS designations, with the overarching goal to continue to expand her insurance knowledge.

Prior to starting her insurance career, Anna attended college at both Linfield University and Clatsop Community College. She received her associate's degree while working as a Firefighter and a Substitute Teacher's Assistant. Her experience fighting fire in rural eastern Oregon led her to love this area and settle into a position at the Bank of Eastern Oregon. Anna gained valuable experience working as both a Teller and a Mortgage Loan Processor, two positions that intersected often with insurance agencies.

Anna has lived in the great community of Heppner since 2009. In that time, she has worked as a Volunteer Firefighter, Girls Basketball Coach, Basketball Referee, and Day Care Board Member. She and her husband, Brandon are also involved in assisting in all their sons' activities including anything from basketball and baseball to mutton busting. As a family they enjoy getting away to camp on the river and adventuring with friends and family in many different areas of the Pacific Northwest.

Anna is always looking to grow professionally and expand her opportunities to support her local community.
